OBJECTIVE

Software Engineer with over 3 years of diverse experience in development and analysis, seeking to advance my technical expertise through the Master's in Artificial Intelligence and Machine Learning at the University of Milano-Bicocca to build next-generation intelligent systems.

EDUCATION

Bachelor of Business Administration in Computer Application (BBA.CA) Savitribai Phule Pune University
2018 - 2021

SKILLS

Programing Languages	JavaScript, TypeScript, R, SQL, and Python.
Technologies	Node.js, React.js, Next.js, Redux, GraphQL, SocketIO, and Git.
Others	HTML5, CSS, TailwindCSS, Chart.js, Gsap, AI integration, NumPy, AWS

EXPERIENCE

Business Analyst Infomaze	Oct 2023 - Present <i>Mysore, India</i>
-------------------------------------	--

- Translated complex business requirements into detailed User Stories and Functional Requirement Specifications (FRS) for a React-based e-commerce platform, reducing development work by 15%.
- Facilitated the integration of third-party payment gateways and crypto-wallets, ensuring 99.9% data integrity across TCP/IP protocols and DNS configurations.

Full Stack Software Engineer Infomaze	Nov 2022 - Oct 2023 <i>Mysore, India</i>
---	---

- Engineered scalable RESTful APIs with Node.js and Express, integrating JWT authentication and middleware to secure sensitive user data and transaction records..
- Architected responsive user interfaces using React.js, utilizing GSAP to create high-performance, scroll-driven animations that improved user engagement by 25%.

Jr. Software Engineer A Java Home	May 2021 - Sep 2022 <i>Pune, India</i>
---	---

- Developed responsive UI components using React.js and Tailwind CSS, improving page load performance by 15% through code splitting and efficient state management with Redux.
- Optimized backend logic for document processing workflows in Python, reducing server response latency by 20% through the implementation of asynchronous task queuing.

PROJECTS

BrainWave

Developed a high-performance landing page utilizing React.js and Tailwind CSS, featuring complex GSAP scroll-triggered animations and a responsive bento-grid layout.

SmartShipHub

A Ship tracker using Node.js, Express.js, PSQL, React.js, and Chart.js.

V-Retail Admin

Architected a real-time management panel utilizing Angular and Socket.io for live data streaming, featuring interactive amCharts5 analytics and Material Design components.

Foxlyme

Used Node.js, React.js and MongoDB and tailwindCSS to build it.

Pusula

A legal contract fields using React.js, and SCSS

Pasqad

a full-service digital transformation agency that provides custom software development, IT consulting, and AI solutions, Developed using React.js, Node.js and MySQL.

Code To Inspire

Built using Node.js, Next.js and MongoDB.

Hazara Student Association in India.

Built Using word Press,java script and MySQL
